

# Loop 49 Toll Road System

# Welcome to Loop 49.

## How to pay tolls on Loop 49.

### 1. Pay with a toll tag.

You can save time and money by using a prepaid electronic toll tag – TxTag, TollTag or EZ Tag – to pay your tolls.

**Learn more about TxTag and how to get one on the other side of this brochure.**

### 2. Pay by mail.

Without a toll tag, you will receive a monthly invoice with charges for each trip on the Loop. Devices above the toll lanes record the license plate of the vehicle, and the registered owner receives the monthly bill. This method of payment is more expensive due to processing and billing costs.

The first two segments of Loop 49 are now open. This is great news, as the roadway has been in the planning stages for more than 30 years.

Loop 49 was initially constructed in sections as a two-lane roadway, with one lane traveling in each direction. A second set of lanes will be constructed in the future. Ultimately, Loop 49 will be a four-lane divided highway similar to Interstate 20 near Tyler.

Once complete, the Tyler Outer Loop will offer drivers the choice of a fast-moving, convenient method of traveling around the south and west sides of Tyler as well as quick access to I-20.

The Lindale Relief Route is a proposed extension of Loop 49 north of I-20 joining US 69.
